Senior Software Engineer

Department: Information Technology
Reports To: Manager, Web Development
Direct Reports: None

JOB DESCRIPTION

OmniSYS, LLC has an open position for a well-qualified Senior Software Engineer, to be filled immediately. The Senior Software Engineer will be responsible for a variety of duties related to the development, enhancement and delivery of an industry-leading web-based comprehensive product portfolio that streamlines drug claim reimbursements. If you are the person destined for this position, you have a combination of deep experience with Java and JavaScript, experience with databases and data-driven application systems, a history of working successfully in small innovative software teams, and a flexible, upbeat approach to working with colleagues.

Responsibilities

- Develop features utilizing multiple subsystems within our applications, including collaboration in requirements definition, prototyping, design, coding, testing and deployment
- Understand how our applications operate, are structured, and how customers use them
- Participate with the engineering and operations teams to define plans for standardizing, scaling and enhancing our products and the services utilized to deploy/install/release those products
- Participate in interactions with customers as a technical expert for product subsystems
- Investigate, analyze and make recommendations to management regarding technology improvements, upgrades and modifications
- Respond promptly and professionally to error reports
- Review and repair legacy code
- Document code consistently throughout the development process by listing a description of the program, special instructions, and any changes made in database tables on procedural, modular and database level
- Other duties from time to time as determined by management

Professional Experience & Skills

- 8+ years experience as a software engineer; demonstrated success developing a variety of software systems while taking on increasing responsibility for analysis, design, implementation and deployment tasks
- 6+ years experience developing data-driven applications utilizing significant relational database engines as part of the overall application architecture (experience with any or all of the following highly desirable: MySQL, DB2, SQL Server)
- 4+ years experience building web-based software systems, utilizing dynamic content, highly-scalable approaches, and complex security models/implementations
- Proficiency developing and troubleshooting complex software systems that run in mixed-environments including Linux, UNIX and/or Windows
- Previous experience configuring and using any or all of the following is highly desirable: JDBC, AJAX, Log4j, Ant, Subversion, Tomcat, Eclipse
- Experience with Agile software development is a plus
- Demonstrate strong and effective inter-personal and communication skills and the ability to interact professionally with a diverse group of clients and staff

Education

- Required:
Bachelors degree in Computer Science, Electrical Engineering, Computer Engineering or similar technical discipline; or, equivalent demonstrable experience
- Desired:
Masters degree in Computer Science or related technical discipline, or equivalent demonstrable experience

Environment

OmniSYS, LLC is the recognized leader in Medicare Part B claims reimbursement for pharmacies, managed care and commercial organizations. We are located in Greenville, TX just northeast of Dallas. We have an informal, energetic and invigorating culture built around hiring smart people eager to collaborate on delivering high quality products. We offer a comprehensive product portfolio that streamlines Medicare, Medicaid, third party, clinical and other specialized drug claim reimbursements. Our customized, proprietary system is supported 24/7/365 by a world-class call center. We are planning for strong growth in our customer base, revenue, and product mix, while working diligently to keep all our customers delighted.

Other Information

This is a full-time, on-site, salaried position, with generous medical, dental, and vision benefits as well as paid vacation.
